

Calgary Conservatives Getting in Line

Calgary, Aug. 30.—A meeting of the Conservative Executive Association of the city of Calgary was held in the office of E. H. Cranfield last night. Practically all the members of the executive attended the call. The meeting was held for the purpose of fixing the date of the annual meeting of the association and for the purpose of making arrangements for the meeting to be held by Mr. R. L. Borden and his western tour. The date of the meeting was fixed for October 4th and will probably be held in Sherman's Auditorium. The speakers who will accompany Mr. Borden on the occasion of his visit to Calgary will be the Hon. Richard McBride, and the Hon. R. R. Roblin. E. W. G. MacLennan will probably also be along, also Mr. Marchant from Montreal.

It was decided to call a convention of the party for the purpose of organizing the riding of Calgary, which is bounded on the south by Midnapore, on the west by Lagan, on the north by Carstairs and on the east by Strathcona, for the afternoon of October 4th. The annual meeting of the city association will be held on Thursday, September 5, at 8 o'clock, in the Elks' hall, Norman Block, to which all friends of the party in Calgary are to be invited. Mr. Borden will address six other meetings throughout the province early in October, namely Lethbridge and MacLeod, October 2nd, Medicine Hat 3rd, Calgary 4th, Red Deer 7th, Wetaskiwin 8th, Edmonton 9th, and come point on the Canadian Northern on the 10th.

WILL SPEAK AT RED DEER.
Red Deer, Aug. 30.—Word has been received that Mr. R. L. Borden will stop at Red Deer during his western tour and deliver an address here. The date fixed for his visit is Monday, Oct. 7th.

More Rails for the G. T. P.

Ottawa, Aug. 30.—Tenders for steel rails have been accepted by the government from the Dominion Company of Sydney and the Algoma Steel Company of the Soo. The price of the Algoma company's rails, which is given from board at Fort William, is about \$34 a ton. The Sydney Company undertakes to deliver its rails at Quebec for about fifty cents a ton less. The tenders of the two Canadian companies when the duty is taken into consideration were less than the price of the rails from the American and British firms which tendered. There are about 30,000 tons of rails in the order, about half going to the east and west of Quebec and the rails from the Soo will be laid on the Superior Junction-Winnipeg section of the road.

Worst Fire in History of Griswold.

Griswold, Man.—Aug. 30.—The worst fire in the history of this town started about eleven o'clock last night in Morris & McCaw's real estate office and was not controlled until it had consumed Taylor's hardware store, the Bell Telephone office, Mrs. Douglas's millinery store, also the Douglas barber shop, Hollwell's livery barn, Nuttall's harness and shoe store, and C. V. Speers' store unoccupied, which was being removed. The total loss will be from twenty-five to thirty thousand dollars which is partly covered by insurance, but particulars are not available owing to the absence of some of the owners. The origin of the fire is unknown.

By-Election Sept. 18.

(Special to The Chronicle)
Ottawa, August 31.—The by-election to be contested by the newly appointed Cabinet ministers, Pugsley and Graham will take place the 18th of September.

C. P. R. Third in Earnings

(Special to The Chronicle)
New York, August 31.—The railway earnings for July, tabulated at New York, show that the C. P. R. ranked third on the list.

Bridge Disaster as Sudden and Complete

Huge Structure Collapsed Without Warning—No Cause Can Be Assigned Government Inquiry Will Be Held Immediately.

Quebec, Aug. 30.—Further details are now available regarding the bridge collapse last night, and show that the disaster is fully as bad as was first reported. A careful estimate places the loss of life at 84.

The bridge fell at exactly 23 minutes to 10, last evening, just as many of the workmen were preparing to leave. The accident was so terrible in its effectiveness in wiping out the lives of the men employed, that very little is known as to the cause of the disaster.

Of the 92 men working on the bridge, eight so far have been recovered. Of the other 84, sixteen have been taken from the water dead, and it is feared that a majority of the others have either been drowned or crushed by the falling girders.

The horror of the situation is increased by the fact that there were a number of wounded pinned under the wreckage near the shore. Their groans and shrieks could be plainly heard by the crowd who had gathered at the water's edge, but nothing could so far be done to rescue them or relieve their sufferings. There were no searchlights available, and by the feeble light of lanterns it was impossible to even locate some of the sufferers.

It was about six when the first news reached Quebec. No one believed it, and it was almost an hour before confirmation came. Nothing is known of the cause of the disaster.

Work was going on as usual, the men being employed in placing immense girders in position. For this work a track had been laid on the bridge, and an engine with freight cars and several heavy cranes were employed getting the steel into position.

The disaster was seen to start out for the end of the bridge, and as it approached the end the first premonition of the disaster was felt by the engineer. His engine continued to move.

The outward end of the structure literally ducked a little, and a moment later collapsed. This much has been gathered from the engineer, who had a marvelous escape. He went down with his engine. How he escaped he does not know. He was picked up later by a boat and became unconscious. When he recovered his senses he knew but little beyond the fact that he felt the bridge going and knew he was falling. When he returned to consciousness he was on shore. The rest of his crew are still in the river.

At the moment of the collapse a locomotive and nine cars of iron had gone upon the bridge. They went down with the wreck. It is expected that some hidden defect had developed. The men killed were mostly Americans in the employ of the Phoenix Bridge Co. of Phoenixville, Pa.

The survivors are so completely numbed by the disaster that they are unable to tell exactly how it happened. Those on shore say that the north end of the arch bent down a little and a moment later the whole enormous fabric began to stretch down slowly at first and with a great plunge which channelled up the river and left only a blank where a moment before had been the beginning of the world's greatest bridge.

Ninety-two were working on the bridge when it collapsed, and of these eight were rescued alive immediately after the disaster by boats. The horror of the situation is increased by the fact that there were a number of wounded pinned under the wreckage near the shore. Their groans and shrieks could be plainly heard by the crowd who had gathered at the water's edge, but nothing could so far be done to rescue them or relieve their sufferings.

Strathcona Rifleman Wins Governor-General's Cup

Douglas McInnis, a member of the Alberta Rifle Association and corporal in B. Squadron C.M.R., yesterday won the Governor-General's prize in the Dominion rifle shoot at Ottawa with a score of 196. McInnis is a tailor in the employ of E. J. Flavin of this city. Two years ago he won the Queen Alexandra prize at the Great National Rifle Association meet at Bisley England and was decorated by King Edward. Three years ago he qualified in third place on the Dominion team for Bisley when, with the 90th at Winnipeg but did not go. He is a personal friend of Sergeant Brown, a member of the Edmonton team now at Ottawa.

Gave Away Secret Instructions

Coblentz, Germany, August 30.—A sergeant of the 23rd regiment of artillery has been arrested here on a charge of treason. He was detected through the discovery on the person of a traveller, Hertha, on the Belgium frontier, of copies of secret instructions regarding army firing as practised in the German army which were only confined to certain officers under strong safeguards. The arrested man was commander of the watch and therefore found opportunity to abstract the copies of the secret instructions and other documents. The traveller on whose person the secret instructions were found was on his way to Paris. Further arrests are believed to be impending.

Louisville Newspaper Burned Out

Louisville, Ky., August 30.—A fire which started in the top of an elevator shaft shortly after midnight, destroyed the building and plants of the Courier-Journal and Evening Times. The whole office building, half a block in length, is a total loss. Almost immediately after the fire started the whole fire department was summoned to fight the flames, but the fire spread with remarkable rapidity and was only a few minutes before the third floor fell. The building was five stories high. It is thought that the fire originated from defective installation of the elevator. The firemen succeeded in keeping the blaze within one building, although for a time there seemed no chance of containing its spread. The Morning Herald has offered the use of its plant to the Courier-Journal.

English Syndicate Bought Mine

Vancouver, Aug. 30.—R. A. Alley, of Tacoma, proprietor of the steamship line between Seattle and New Zealand, announced on behalf of an English syndicate, he had purchased the West Wellington coal mine, adjoining the Dunsmuir colliery, for \$375,000 cash.

Clerk Robbed Till

New York, Aug. 30.—On the charge of being guilty of the larceny of thousands of dollars, Edward Phillips, a clerk in the employ of C. B. Salisbury & Co., stock brokers of 52 Broadway, was taken to police headquarters yesterday to be photographed and measured, prior to his arraignment and New Zealand police court. According to the police, he has taken \$9,000. The firm does not know what its loss will reach, to itself it has made a thorough examination of its books. It was yesterday, on Phillips' first day in five years, that Reshen D. Sussner, another employee of the firm, whose suspicion had been aroused, decided that he would do a little quiet investigating. He knew that to Phillips was entrusted the firm's money, which was to be put in the bank, and that it was his duty to care for the bank deposit book, and the cheque book. Sussner, during Phillips' holiday, compared the bank book with the cheque book, and saw how they tallied. It was not until he had done so that he decided that he would do a little quiet investigating. He knew that to Phillips was entrusted the firm's money, which was to be put in the bank, and that it was his duty to care for the bank deposit book, and the cheque book. SAVING MONEY.

Netting the First Thousand Dollars and
What It Teaches.

"Get the first \$1,000. That is the old time sage advice of the hard headed, self made man. That advice has set many men to saving. They fix upon that sum as the glittering faroff herald of a fortune some time to be made. To a man on a small salary—a salary, say, out of which something can be saved weekly without too much deprivation—the advice is good. There is something in it that acts as a stimulus to economy. And who will deny that economy is a good thing or that any truth that lights the way to it should not be known?"

Many men, therefore, have been lured up in their economies for the belief that the first \$1,000 is the first step to get and that afterward all the rest would be easy and the good thing of the world that follow a hard earned supply of money would be within easy reach. It is a pity that the man who invented that saying could not also have told us with equal advantage how to turn the \$1,000 over and make the most of it. It takes a long time to make a wage earner see that "money works" for it himself. It never occurs to him that money works much easier than he can and without any of the handiwork he himself experiences—that is to say, until he has got the first \$1,000. That usually makes a young man feel like a financier, and he talks wisely of investments.

Just Keep On.

When today's difficulties overshadow yesterday's triumphs and obscure the bright visions of tomorrow, when plans upset and whole years of effort seem to evaporate into a single loss of concentrated bitterness, when little annoyances eat into the mind very cruelly and corrode the power of things calmly, when the joys of a fortune threaten to jar loose the logic from its moorings, remember that in every business, in every career, there are valleys to cross, as well as hills to scale, that every range of hope is broken by a chain of discouragement through which you must strain of despair. Look at the chain is to fail. See also, in your mind's eye those sunny moments of success. Don't quit the chain! Keep on—System.

A Gamewit.

A certain western congressman has had abundant experience in gold mine speculation. One day a number of colleagues were discussing the subject of speculation when one of them said to the western member: "You, as an expert, give us a definition of the term 'gamewit.'" "A 'gamewit,'" replied the western man, with emphasis, "is a hole in the ground by a champion liar." Success.

Alexander the Great.

Alexander succeeded to the throne of Macedonia in his twenty-first year. He died at the age of thirty-two. Thus in the space of about twelve years the young soldier had brought the Greeks into submission, crushed Persia and his million of Persians and crossed the Indus and defeated the Indian King Porus. Alexander was not merely a brutal conqueror, but tried to weld the various countries into a solid empire.

No Use For Them.

"Come, Willie, get up!" said an indulgent father to his son the other morning. "Remember, the early bird catches the worm."

"What do I care for worms?" replied Willie. "Mother won't let me go fishing."

Still in Danger.

Wiggins—I hear Dicks has been very ill. Is he out of danger yet? Wiggins—Well, he's convalescent, but he won't be out of danger until that pretty nurse who has been taking care of him has gone away.

The horrible punishment of burning women alive seems to have existed in Spain England, but perhaps only in the case of slaves. Under the Norman rulers any woman, bond or free, who killed her husband was burned alive, and the same punishment for this crime and also for high treason and even for coining and other minor offenses continued or arose from time to time through the second and third periods until it was abolished by act of parliament in 1790, the last actual execution of this kind having, however, taken place six years earlier. The whipping of women for various offenses continued even later. Public whipping was not abandoned until 1817, and cases of private whipping occurred as late as 1820.

There can be no doubt, we think, that the savage human instinct of cruelty had something to do with the barbarous punishments above mentioned. As the old Roman public lashed for the carnage of the circus, as the Spanish populace crowded to the execution of the condemned by the guillotine, so the lower perhaps not only the lower strata of English nationality took delight in witnessing the tortures which in all probability were devised and kept up partly for their entertainment. Judge Jeffries in sentencing a woman to be whipped is reported to have said:

"Huzman, I charge you to pay particular attention to this lady. Scourge her till her blood runs down. It is Christmas time, a cold time for madam to strip. See that you burn her shoulders thoroughly."—Cornhill Magazine.

Monday being a Dominion holiday
there will be no issue of the Evening
Chronicle.

The stork presented Mr and Mrs
A. P. Laughlin with a bouncing baby
boy last night.

J. L. Haycock, dominion inspector of
binder twine, was in the city to-day, and
left on the south train.

Rev. T. J. Johnson being away for a
month's vacation to the coast, the
Methodist pulpit will be taken to-mor-
row evening by Rev. A. J. Law of Edmon-
ton and will be supplied locally in the
morning.

The Edmonton Employment Agency
of which O. C. Pedersen is the Strath-
cona agent, have placed all the Har-
vester excursionists that have so far ar-
rived. They expect a number via C.N.R.
in a day or two.

Mrs. James Gordon and her grand
daughter, Miss Helen Gordon White,
of Halifax, Nova Scotia, who are visit-
ing the West, are the guests this week
of the Rev. Dr. MacDonald's family,
Griesbach Avenue.

The Board of Trade will hold a special
meeting on Wednesday evening in the
city council chamber to discuss the sit-
uation of the secretary, who besides being
secretary of the board, is editor of the
Chronicle. A full attendance of the
members is requested.

The funeral of the late Lem Martin
will take place from Wainwright's under-
taking parlors at 2 o'clock to-morrow
afternoon to the Strathcona cemetery.
The local Orange Lodge, of which the
deceased was a member, have the ar-
rangements in hand and will attend
while an escort from "B" squadron C.
M.R. will also attend, as a mark of
respect for the memory of their dead
comrade. The Rev. Dr. McDonald will
conduct the service and the members of
the congregation from Rabbit Hill will
be present.

SPORTS

Baseball

Edmonton Beat Lethbridge
Again

Lethbridge, August 30.—The Edmon-
ton team just managed to squeeze out
another victory over Lethbridge again
this evening, the score at the end of the
eighth inning, when the game was
called on account of darkness, being 8-7
in their favor.

Medicine Hat Won Double Header

Medicine Hat, August 30.—The home
team won two games from Calgary to-
day, winning by 8-7 in the first and by
6-1 in the second. In the afternoon
game the winners had a very anxious
time, as Calgary led them 7-4 when the
Hatters went up to bat for the last time.
The Hatters, however, were equal to the
occasion, and with a bunch of four
men saved the situation. They were
lucky, however, as the last run was
scored on a balk. Barnestedt hitting his
leg as he drew back his pitching arm
and letting the ball drop to the ground.
The second game was by no means so
easy for the winners as the score would
indicate. The game was called after the
first half of the sixth after Calgary
had scored three in that inning. Errors
helped the Hatters to pile up the score.

First game—
Medicine Hat.....0 1 0 0 1 0 2 4-8
Calgary.....0 2 0 0 0 1 4 0 x-7
Second game—
Medicine Hat.....1 1 0 0 4-6
Calgary.....0 0 0 0 1-1

Lacrosse

Edmonton 5 Strathcona 1.

The Strathcona lacrosse team sustained
a bad beating last night at the hands of
Edmonton, the score at the finish being
five to one in favor of the Capitals. The
game had to be called at the end of the
third quarter on account of darkness.
There was rather more scrapping than
lacrosse, the referee, Finch, evidently
being powerless to prevent it. The
Edmonton players were the worst offen-
ders, and R. McKinnon was easily the
most aggressive of the bunch. He
made several fierce and unprovoked at-
tacks on Strathcona players, and spent a
good deal of his time on the fence.
Humston scored the losers' solitary
goal from a pass by Clarridge. The
teams lined up as follows—

| Strathcona | goal | Edmonton |
|------------|-------------|-------------|
| Malone | point | Shanks |
| Horribin | cover | Glass |
| Parsons | 1st defence | Powers |
| Jamieson | 2nd defence | C. McKinnon |
| N. Main | 3rd defence | Balfour |
| Bisset | centre | Ward |
| Hampton | 2nd home | R. McKinnon |
| Kent | 2nd home | Bolander |
| Woods | 1st home | McMillan |
| Clarridge | outside | Young |
| P. Main | inside | Jones |
| Humston | | Levens |

Rugby Football

Strathcona Won First Game
of Season

The Edmonton and Strathcona Rugby
Football teams came together last night
for the first time this season, and the
result was a win for the Strathcona boys
by two tries (6 pts.) to nil. The Ed-
monton team were by far the heavier,
and the locals deserve credit for their
victory. The game was perfectly friend-
ly and clean. The first try was scored
by Wat. Adams, the well-known heavy-
weight boxer. The second was the re-
sult of a pretty piece of combination.
Adams picked up from a kick by Camp-
bell and passed to McDermid, who scored.
The following was the Strathcona
line-up:

Full back, A. Hinton; three-quarter
backs, McLean, McDermid, Darke, and
Judge; halves, Jackson and Westbury;
forwards, Adams, (leader of scrum),
Campbell, Hinton, Grant, Roberts, Gil-
son, Shackleton and Danks.
